POWER YOUR PROFITABILITY

FOR
**HIGH
DRAIN**
DEVICES

KEEP YOUR TOUCHLESS RESTROOM OPERATIONAL AVOID POTENTIAL THREATS TO SAFETY AND HYGIENE

COMMON OPERATIONAL ISSUES:

- Towels not dispensing
- Soap not dispensing
- Faucets not flowing
- Toilets not flushing

THE SOLUTION

Introducing **NEW PROCELL INTENSE POWER** alkaline batteries from Procell, the world's first device-specific battery, engineered to deliver precise pulses of energy while lasting longer in high-drain professional devices.

Up to 40% better longevity* in high-drain professional devices, that may result in fewer battery replacements and may therefore lead to savings on operating costs that are associated with battery replacement. High drain devices typically have motors, pumps or mechanism that drives a motion as an output.

*vs. prior Procell AA, AAA, C, D, and 9V batteries

High-drain devices such as:

- Paper Towel Dispensers
- Automatic Flushers
- Automatic Odorizers
- Sanitizer Dispensers
- Touchless Faucets

POWER YOUR PROFITABILITY

TURN PROFESSIONAL BATTERIES FROM A COST CENTER INTO A COST SAVER

Procell understands how critical it is for professional end-users to drive the profitability of their businesses.

When it comes to batteries, this can be achieved through minimizing costly battery replacements.

By conducting intensive device testing and analysis in our labs, Procell has discovered that a way to dramatically extend alkaline battery life and cut replacement costs is to engineer device-specific industrial alkaline batteries, each with unique power profiles.

THE WORLD'S FIRST DUAL PORTFOLIO OF PROFESSIONAL BATTERIES

Procell Intense Power is a new battery range specifically engineered to deliver precise pulses of energy while lasting longer in high-drain professional devices*. High drain devices typically have motors, pumps or mechanism that drives a motion as an output.

*vs. prior Procell AA, AAA, C, D, and 9V batteries
