

## The SmartWasher® Bioremediating Parts Washing System is both self-cleaning and non-hazardous

Through the process of bioremediation the SmartWasher® constantly maintains the cleanliness of the OzzyJuice® cleaning/degreasing solution without the need for hauling, skimming or evacuating the unit.

## What is OzzyJuice® Cleaning Fluid?

OzzyJuice® is a powerful, aqueous based degreasing solution that is **pH-neutral, non-flammable, and non-toxic**. Armed with superior cleaning capability, the OzzyJuice® solutions will match or surpass the performance of a premium solvent without all the associated risks. All OzzyJuice® solutions are certified by both NSF and SCAQMD.

## Ozzy® Microbes Keep the OzzyJuice® Clean and Strong

Ozzy® Microbes, introduced into the SmartWasher® system through the OzzyMat® Filtration, eat the grease, oil and other contaminants, cleaning off the dirty parts, creating the harmless by-products of carbon dioxide and water.

## Clean OzzyJuice® Means Clean Parts

The OzzyJuice® cleaning/degreasing solution cleans the dirty parts and the Ozzy® microbes clean the OzzyJuice® leaving it strong and clean for every use. You should never need to haul away dirty parts cleaning fluid again, if the unit is maintained properly, and according to the operating instructions.

# It all begins in the OzzyMat®

The OzzyMat®, impregnated with Ozzy® Microbes, is the key to maximizing the performance of the SmartWasher® System and the OzzyJuice® degreasing/cleaning solution.

## The OzzyMat®

The OzzyMat® traps particulate down to 50 microns in size but more importantly contains Ozzy® microbes. The Ozzy® microbes, impregnated in the OzzyMat®, are transported along with the OzzyJuice® into the SmartWasher® tank. These naturally occurring Ozzy® microbes eat the grease, oil, and other contaminants cleaned off the dirty parts and create the harmless by-products of carbon dioxide and water. This bioremediation process leaves the OzzyJuice® clean and strong and ready to use time after time without the need to change, evacuate or haul away dirty parts washing fluid.

*Change the OzzyMat® once a month to maintain clean OzzyJuice®.*

## The Ozzy® Microbes

The Ozzy® Microbes do their job eating the grease, oil and other contaminants, cleaning off the dirty parts, creating the harmless by-products of carbon dioxide and water, leaving the OzzyJuice® clean and strong and ready to use.

## Heated OzzyJuice®

Heated OzzyJuice® flows through the nozzle, and flow-through brush, onto the dirty part, then travels through the OzzyMat® and into the SmartWasher® tank. Heated OzzyJuice® maximizes microbial activity for self-cleaning and boosts cleaning efficiency.

## The 300 GPH Recirculating Pump

The 300 GPH Recirculating Pump pulls the OzzyJuice® from the tank and sends it back through the nozzle and brush - ready to clean more dirty parts.

## OzzyMat® Filtration

**FL-4** 14124  
Multi-Layer Filter  
(recommended for normal to heavy parts cleaning applications)  
6-Pack

**FL-3** 14149  
Single Layer Filter  
(recommended for light parts cleaning applications)  
6-Pack

## OzzyJuice®

**SW-1 Degreasing Solution** 14156  
5 Gallon Jug

**SW-3 Truck Grade Solution** 14720  
5 Gallon Jug

**SW-4 Heavy Duty Solution** 14148  
5 Gallon Jug

**SW-6 Select Metals Solution** 14158  
5 Gallon Jug

**SW-7 Parts/Brake Solution** 14721  
5 Gallon Jug

**SW-8 Aircraft & Weapon Solution** 14722  
5 Gallon Jug

**SW-LF Low Foam Solution** 14159  
5 Gallon Jug

**SW-X1 HP Degreasing Solution** 1751304  
5 Gallon Jug

**OzzyBooster™ Microbial Enhancer** 14131  
8.5 Fl. Oz. Bottle - 6 Per Case

All Solutions are available in 55 gallon drums.

## SmartWasher® Start-Up Kits

Each kit contains solution and the filter necessary to get everything up and running quickly. The solution is selected based on cleaning needs.
